drawing or sample

We also produce high quality profile grinded bandsaw blades for cutting meat and fish. Slicer for the food industry (Grote machines, Kaufler machines etc.) as well as bandknives for the bread industry.

At this occasion we want to pull your attention to the production range of our sister company

Friedrich Bickenbach GmbH & Co. KG in the same building.

The company Friedrich Bickenbach GmbH & Co. KG even assures you a production of high quality bandsaw blades for the wood and metal industry.
